ABOUT US

With our heart in Österlen and with nature as a source of inspiration, we design and manufacture furniture locally with a strong focus on quality. All our furniture and design products are manufactured in Sweden.

Nature is a source of inspiration both in the choice of materials and production methods. Everything we manufacture is locally produced in close cooperation with all suppliers so that we can guarantee the quality of furniture in a way that is ethically and environmentally sustainable.

In the early 2000's our journey began in Österlen where we started producing furniture ourselves. Today we manufacture a wide range of design furniture as well as Compact Living furniture such as wall beds, which help save space and the environment. Our vision is that our furniture should last for generations.

The Inspiration For Our Furniture

ÖSTERLEN

Österlen is a popular tourist destination in the south-eastern Scania region with romantic open landscapes and beautiful nature. The stunning coast and the idyllic towns where agriculture and culture mix make Österlen a place worth visiting. Every year in the spring, five different art tours are organized in Skåne.

BÄSTEKILLE

Bästekille is at a high altitude west of Kivik on the east coast of Österlen. From the slopes you have a beautiful view of Stenshovud and Kivik. There are stables nearby where it is possible to go horse riding.

BORSTHUSEN

Borsthusen is a small village located south of Vik on the east coast of Scania. The nearby beach is a popular spot for surfers.

HANNAS

On the road between Ystad and Simrishamn, east of Bollerup is Hannas where horses graze in the landscape. Hannas is also a small traditional cozy village with the church at its centre. The church has an interesting farm rococo style from the 18th century.

KVERRESTAD

In the middle of Österlen, a little south of the road that runs from Simrishamn on the east coast, to Lund in the west, lies the small village of Kverrestad. Surrounded by farms with an 1870s church, the village has traditional architecture, a vicarage and a vicarage park.

KÅSEBERGA

On the beautiful Scanian south coast, east of Ystad, in Österlen lies Kåseberga. It is a popular destination known for the Ale's Stones, a formation of 58 boulders that were probably erected during the Late Iron Age. In Kåseberga there is also a small port with fish restaurants, which is definitely worth a visit.

MAGLEHEM

Maglehem, originally Maglehjem is a small church village located on Scania's east coast, north of Brösarp and south of Degeberga. The coast at Hanö Bay has beautiful beaches. Just outside the village is Maglehem's apple orchard where apples from the orchard are used to create juice and other beverages.

MULLSJÖ

East of Ryfor's ancient forest by lake Mullsjön, just west of Vättern lies Mullsjö, a small town with 5,000 inhabitants. Mullsjö is a scenic area with opportunities for, among other things, hiking in several nearby nature reserves.

SLIMMINGE

Slimminge is a small village located north of Skurup at the beginning of the long Romeleåsen which stretches all the way to Lund.

SPJUTSTORP

Northeast of Tomelilla in the middle of Skåne lies Spjutstorp, which also has a beautiful old church. In Spjutstorp there is both a campsite and a swimming pool, which has made it a popular tourist destination during the summer. Motor meets are organised in the summer time.

TRANESGÅRDEN

In the middle of culturally rich Skåne-Tranås on the cobblestone square is Tranesgården. The farm is a traditional half-timbered building where cultural events take place regularly. On the road between Kristianstad and Ystad, Tranås has existed since the 9th century. Tranås became Skåne-Tranås in order not to be confused with the village of the same name in nearby Småland. Every year Skåne-Tranås participates in the famous Skåne art exhibition tour.
